## PROFESSIONAL SUMMARY

A highly motivated and detail-oriented MERN Stack Developer with a strong foundation in full-stack web development, including JavaScript, React, Node.js, Express, and MongoDB. Proficient in building dynamic, responsive web applications and RESTful APIs. Passionate about problem-solving, delivering exceptional user experiences, and staying up-to-date with emerging technologies.

## TECHNICAL SKILLS

**Languages:** JavaScript, HTML, CSS

**Technologies/Frameworks:** React, MongoDB, Express.js, Node.js, Redux, Tailwind CSS

**Developer Tools:** VS Code, Git, GitHub, Postman

## EDUCATION

**K.S.Rangasamy College Of Technology**

2019 – 2023

*B.E - Electronics and Communication Engineering*

*CGPA - 8.55*

**Jayam Matric Hr Sec School**

2018 – 2019

*Higher Secondary Certificate*

*Percentage - 83.83*

## EXPERIENCE

**Intern at Unified Mentor** 🔗

Sep 2024 - Nov 2024

*Role - Web Development Intern*

- Gained hands-on experience in developing and optimizing responsive web applications using **HTML, CSS, JavaScript, React.js, Node.js, Express**, and **MongoDB**.
- Collaborated in an agile environment, conducting code reviews and implementing best practices to ensure high-quality deliverables across multiple devices.

## PROJECTS

**E-commerce Website** 🔗 | MERN Stack, Cloudinary

- Launched an innovative full-stack e-commerce application that included user authentication and automated product management; facilitated real-time inventory updates.
- Implemented features for product listing, searching, filtering, and payment processing.
- Integrated Cloudinary for image storage and Stripe for payment gateway.
- Designed the database schema for products, orders, and user management.

**Netflix Clone** 🔗 | MERN Stack, REST APIs

- Created a full-stack application replicating core features of Netflix including user authentication, movie browsing, and streaming.
- Utilized RESTful APIs for fetching movie data and implemented a responsive UI with React.
- Implemented Redux for state management and optimized performance for a seamless user experience.

**Chat Application** 🔗 | Socket.io, Node.js, Express

- Developed a real-time chat application using Socket.io for live communication and online user status updates.
- Implemented secure user authentication using JWT, ensuring protected access and persistent sessions.
- Leveraged MongoDB for message storage and retrieval, providing efficient data persistence for chat history.

**Portfolio Website** 🔗 | React, Framer Motion

- Designed and developed a personal portfolio website to showcase projects and skills.
- Focused on UI/UX principles for an engaging user experience.

## CERTIFICATIONS

**MERN Stack Course - Error Makes Clever Academy** 🔗

- Completed a 3-month course covering MongoDB, Express.js, React.js, and Node.js.
